

## **The Bull & Barrel Urban Saloon: Live Concert Specifications**

The Bull & Barrel Urban Saloon is capable of hosting a number of different events. We are fully capable of handling anything from Fashion Shows, Dinner Shows, Small Bands, Live Acoustic, Cocktail Receptions, Fundraisers and Full Band Concerts. When planning our venue layout and format, we designed The Bull & Barrel so that we would be able to host these types of events and entertain in other ways that most normal restaurants/bars are not capable of. This document more specifically discusses the ability for us to host and produce live concerts. Please see some specs listed below about our venue, and if you have any questions at all please feel free to email Andrew Corbett at [andrew@bullandbarrel.com](mailto:andrew@bullandbarrel.com).

**Venue Capacity:** 475 Inside, 250 on Patio

**Hotels:** We are less than a 5-minute drive from many of Windsor's most popular hotels including Caesars Windsor, The Hilton, Radisson, Holiday Inn and the Days Inn.

**Meet and Greet Rooms:** We have two rooms that are designed for small groups or Meet and Greets before or following a concert. These rooms are fully equipped with couches, furniture, tables and chairs with an entrance and an exit.

**Meals/Food:** We are able to fully accommodate food requests within our venue as we have a full Kitchen Staff and a Chef that oversees the dining portion of our business.

**Change Rooms:** We have one green room with a personal washroom and lockable door, along with a second room if needed (without personal washroom).

**Staging:** We own all of our staging in-house and are capable of building or creating a stage in a few different locations throughout the venue. Our main stage area (centered where our Bull normally is) is able to be built out to a 16'x16' but mostly commonly a 12'x16' and raised 2ft.

## **Technical Equipment List:**

This is our equipment list that we carry in house, if other equipment is needed, please do not hesitate to ask:
